Cartosat-2

Cartosat – 2 launched through **PSLV C-38**. Cartosat is a series of earth observation satellites placed in Polar Sun Synchronous Orbit (PSSO).

- PSLV is the third generation launch vehicle of India. It is the first Indian launch vehicle to be equipped with liquid stages.
- The imageries from Cartosat-2 series satellite will be useful for cartographic applications, urban and rural applications, coastal land use and regulation, utility management like road network monitoring, water distribution, creation of land use maps, change detection to bring out geographical and manmade features and various other Land Information System (LIS) and Geographical Information System (GIS) applications.
