D10 club

- The British government has approached the US with the prospect of creating a 5G club of 10 democracies, including India, amid growing security concerns related to Chinese telecom giant Huawei.
- A so-called 'D10' club of democratic partners, including G7 countries – UK, US, Italy, Germany, France, Japan and Canada – plus Australia, South Korea and India will aim to create alternative suppliers of 5G equipment and other technologies to avoid relying on China.
- The move to speed up such a club comes as the UK launched an inquiry into Huawei’s involvement in the country’s mobile network upgrade in the wake of US sanctions against the company.
