**Decarbonising Transport: International Project to Develop Pathway to Low-CO2 Mobility for India**

- **NITI Aayog** in collaboration with **International Transport Forum (ITF)** will launch the “**Decarbonising Transport in India**” project on 24 June, with the intention to develop a pathway towards a low-carbon transport system for India.
- **India has been a member of ITF**, an **intergovernmental organisation** for transport policy, since 2008.
- The online event will inform transport and climate stakeholders in India about planned project activities. It will also offer the **opportunity to provide inputs** regarding India’s transport challenges and how they relate to CO2 reduction ambitions.
- The discussion will help to focus the project further on India’s specific needs and circumstances.
- The “Decarbonising Transport in India” project will design a tailor-made **transport emissions assessment framework for India**.
  - It will provide the government with a detailed understanding of current and future transport activity and the related CO2 emissions as a basis for their decision-making.
  - It is **part of the “Decarbonising Transport in Emerging Economies” (DTEE)** family of projects, which supports **transport decarbonisation** across different world regions. India, Argentina, Azerbaijan, and Morocco are current participants.
- The DTEE is a collaboration between the ITF and the Wuppertal Institute, supported by the International Climate Initiative (IKI) of the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety.

**About International Transport Forum**

- The International Transport Forum at the OECD is an intergovernmental organisation with **60 member countries**.
- It acts as a **think tank** for transport policy and organises the **Annual Summit of transport ministers**.
- **ITF** is the only global body that covers **all transport modes**.
- The ITF is administratively integrated with the OECD, yet politically autonomous.
- The ITF organises global dialogue for better transport.
- It acts as a **platform for discussion and pre-negotiation of policy** issues across all transport modes.
- It analyses trends, **share knowledge and** promote exchange among transport decision-makers and civil society. The ITF’s Annual Summit is the world’s largest gathering of **transport ministers** and the leading global platform for dialogue on transport policy.
