Chak-Hao

- The application for Chak-Hao was filed by the Consortium of Producers of Chak-Hao (Black Rice), Manipur and was facilitated by the Department of Agriculture, Government of Manipur and the North Eastern Regional Agricultural Marketing Corporation Limited (NERAMAC).
- Chak-Hao, a scented glutinous rice which has been in cultivation in Manipur over centuries, is characterised by its special aroma. It is normally eaten during community feasts and is served as Chak-Hao kheer.
- Chak-Hao has also been used by traditional medical practitioners as part of traditional medicine. According to the GI application filed, this rice takes the longest cooking time of 40-45 minutes due to the presence of a fibrous bran layer and higher crude fibre content.
- At present, the traditional system of Chak-Hao cultivation is practised in some pockets of Manipur. Direct sowing of pre-soaked seeds and also transplantation of rice seedlings raised in nurseries in puddled fields are widely practised in the State’s wetlands.
