SWADES (Skilled Workers Arrival Database for Employment Support)

- With the aim of making the best of our skilled workforce returning to the country due to the ongoing pandemic, the Government of India has launched a new initiative SWADES (Skilled Workers Arrival Database for Employment Support) to conduct a skill mapping exercise of the returning citizens under the Vande Bharat Mission.
- This is a joint initiative of the Ministry of Skill Development & Entrepreneurship, the Ministry of Civil Aviation and the Ministry of External Affairs which aims to create a database of qualified citizens based on their skillsets and experience to tap into and fulfil demand of Indian and foreign companies.
- The collected information will be shared with the companies for suitable placement opportunities in the country.
- The returning citizens are required to fill up an online SWADES Skills Card.
- The card will facilitate a strategic framework to provide the returning citizens with suitable employment opportunities through discussions with key stakeholders including State Governments, Industry Associations and Employers.
- MSDE’s implementation arm National Skill Development Corporation (NSDC) is supporting the implementation of the project.
